PROFESSIONAL SUMMARY

Full Stack Developer with **3.9 years of experience** building and modernizing enterprise web applications using **React, Angular, ASP.NET Core, SQL Server, and AWS**. Strong in **API design, performance optimization, legacy migration (.NET Framework → .NET Core), and CI/CD automation**. Delivered measurable improvements in **system speed, maintainability, and deployment efficiency** in agile teams.

SKILLS

Frontend: React.js, Angular, TypeScript, JavaScript, HTML5, CSS3
Backend: ASP.NET Core, Web API, .NET Framework, MVC, Entity Framework
Database: SQL Server, LINQ, Stored Procedures
Cloud/DevOps: AWS (EC2, S3, RDS, Lambda), Azure DevOps, GitHub Actions, Jenkins, CI/CD
Engineering: REST APIs, Microservices, Agile, Unit Testing, SOLID, Repository Pattern

WORK EXPERIENCE

Full Stack Developer Diligent Corporation (Community Team) – June 2024 – Present

- Built and enhanced React UI modules using **reusable** components, reducing page load friction and improving user workflow efficiency across enterprise screens.
- Designed and implemented REST APIs in **ASP.NET Core** with validation, exception handling, and token-based security to support scalable inter-service communication.
- Improved backend response time by optimizing **LINQ queries**, reducing unnecessary joins, and tuning **SQL Server stored procedures** for high-volume datasets.
- Migrated legacy modules from **.NET Framework** to **.NET Core** by replacing incompatible libraries, modernizing configuration, and improving maintainability.
Used **AWS** services including **EC2, S3, RDS, and Lambda** for hosting, storage, database connectivity, and lightweight automation tasks.

Tech: React.js, ASP.NET Core, Web API, SQL Server, LINQ, AWS

Full Stack Developer Capgemini (Client: Mercedes) – Aug 2022 – June 2024

- Delivered end-to-end features using **Angular + .NET Core**, contributing to consistent on-time delivery in a client-facing environment.
- Designed reusable REST APIs following **SOLID principles and repository patterns**, improving maintainability and clarity of service layers.
- Supported CI/CD implementation and improvements using **Azure DevOps, Jenkins, and GitHub Actions**, accelerating release cycles.
- Worked in Agile teams (sprint planning, code reviews, collaboration with QA/DevOps) to deliver stable releases.

Tech: Angular, TypeScript, ASP.NET Core, MVC, SQL Server, Azure DevOps, Jenkins

PROJECTS

Voice-Email-For-Blind

[GitHub - Voice Based Email System](#)

- Built a voice-controlled email application for visually impaired users using **Speech-to-Text and Text-to-Speech**.
- Implemented voice navigation for composing, sending, and reading emails.
- Integrated email protocols (IMAP/SMTP) for secure email access.

Loan Approval App

[GitHub - Loan Approval App](#)

- Built a web-based admin system to manage loan applications and customer records.
- Implemented full CRUD functionality with Angular and TypeScript.

CERTIFICATIONS

- AWS Certified Cloud Practitioner
- [Microsoft Certified: Azure Fundamentals](#)
- [Cisco: Introduction to Cybersecurity](#)

EDUCATION

Bajaj Institute of Technology, Wardha MH
Bachelor of Technology in Computer Science | 2018 – 2022

ACTIVITIES AND INTERESTS

Enthusiastic technologist and innovator, dedicated to exploring emerging technologies and delivering high-impact digital solutions.
